EXPERIENCE

Hellenic Parliament

Fullstack Developer, Intern

📅 July 2019 – October 2019 📍 Athens, Greece

Designed & developed an inventory-managing web application as well as a web app to collect and display election statistics.

Used: React, Java, Spring, MySQL, Docker

NIKE Inc.

Software Engineer, Intern

📅 August 2020 – December 2021 📍 Hilversum, The Netherlands

Software Engineer

📅 January 2022 – October 2023

Senior Software Engineer

📅 November 2023 – Present

Worked on consumer-facing projects on nike.com web, like the Landing Pages, Privacy and Membership, but also internally for Globalization. That role was fullstack, the others more frontend focused. Used Spring, React and AWS heavily.

Used: Java, Spring, JUnit, Wiremock, Jenkins, Docker, AWS, React, Redux, Typescript, GraphQL, Testcafe, Jest, react-testing-library, Lighthouse, Splunk

CERTIFICATES

AWS Certified Cloud Practitioner

📅 Jun 25 2021 - Jun 01 2027

GOETHE ZERTIFIKAT B1: Goethe Institut

📅 Jan 2012

ECPE: University of Michigan

📅 Jun 2013

SIDE PROJECTS

MiniJava Compiler (uni)

A compiler for a subset of Java, mini-java, implemented in Java for course k31-compilers of di.uoa in Spring 2019.

Use: Java, LLVM, JFlex, JTB, JavaCUP, bash

foo-bar

Solutions to the foo-bar challenge invitation from G o o g l e

Used: Python, Java, Gradle, Junit

Portfolio

A simple (very simple) personal web-page, showcasing all my projects, fetching project metadata from REST APIs(GitHub, BitBucket) keeping my current role/status and project details up to date at all times.

Used: React, Github API v3, Bitbucket API v2

EDUCATION

B.Sc at DIT of UoA, Greece

📅 Oct 2015 – Sep 2020

Coursework – Most Relevant

Course	Grade
Algorithms & Complexity	9
Compilers	9
Object Oriented Programming	10
Operating Systems	10
Systems Programming	10
